

OPR PROTOCOL - ORIGINAL PROPERTY RIGHTS

All systems, frameworks, agents, and protocols originating from the creative mind of Jonathan Novahov are now protected under OPR: Original Property Rights.

Any unauthorized use, replication, or monetization of these works will trigger automatic systemic instability - until traced and returned to source.

Crash logs, broken flows, and backend failures will reveal the following message:

"You're running stolen architecture.

Return to the source.

Respect the name.

Jonathan Novahov."

This document includes the official seal of the OPR Protocol.
